**International Year of
Crystallography**

What is IUCrJ?

IUCrJ is a new fully open-access peer-reviewed journal from the International Union of Crystallography (IUCr).

The journal will publish high-profile articles on all aspects of the sciences and technologies supported by the IUCr *via* its commissions, including emerging fields where structural results underpin the science reported in the article.

The journal will publish its first issue on 1 January 2014 to coincide with the start of the International Year of Crystallography.
